

Viewing Service History: Use the eShop 2.0 portal to review work orders that have been completed for your fleet. You can view completed work in two ways — by an individual asset, or as a full list of completed work orders.

Note: Portions of application pages are grayed/blurred out to conceal and protect identities.

Open Service History

1. On the top navigation bar, click **Work Order**, then select **Service History** from the dropdown.

Work Order menu — select Service History.

The **Service History** page opens with two tabs: **Service Asset** and **Work Orders**. Once a work order is closed as completed, it appears here.

View Completed Work by Asset

2. On the **Service Asset** tab, locate the asset (tractor/trailer) you want to review.

Service History — Service Asset tab lists your fleet's assets.

* This view shows every asset in the fleet — useful for seeing the last DOT and Preventive Maintenance (PM) service was completed.

3. Click the asset to open its record. Any work orders completed for that asset are listed at the bottom of the record.

Service History — Asset Details lists all work orders for that asset.

* This view shows every completed work order in the context of a single asset — useful for reviewing the full service history of one vehicle.

View the Completed Work Orders List

- Click the **Work Orders** tab to see every work order completed for your fleet, along with the date each was completed.

The screenshot shows the eSHOP 2.0 interface. At the top, there's a blue navigation bar with the eSHOP logo and a home icon. To the right of the logo, there are tabs: "Service Appointments", "TA Locations", "Work Order" (which is active and highlighted in blue), and "Fleet Admin". Below the navigation bar, the main content area is titled "Service History". Under this title, there's a "Service Asset" section with a dropdown menu showing "Work Orders" (highlighted with a red box). Below that is a "Service Account" section with a dropdown menu and an "Apply" button. To the right of the "Service Account" section is a search bar with a magnifying glass icon. Below these sections is a table of work orders. The table has columns: "WORK ORDER", "SERVICE ACCOUNT", "TA SITE LOCATION", "PRIMARY INCIDENT TYPE", "VISIT STATUS", "COMPLETED ON", and "WORKORDER INVOICE". The table lists several work orders, all with a "COMPLETED" status. At the bottom of the table, there's a pagination bar with numbers 1 through 10, and a copyright notice "© 2026 TA-Petro Truck Service".
